

DRUG FACT SHEET: “SPICE” & “K2”

“Spice” and “K2” are psychoactive chemicals sprayed on to smoking materials to enhance the high. It is many times more potent than today’s marijuana.

Dosing is variable and therefore dangerous due to the “garage chemist’s” work.

Street names include

Smoke – Potpourri Buzz -Pulse

Voodoo - Mystery

Earthquake - Black Mamba

Ocean Blue and Stinger

Severe reactions include:

Seizures – Hallucinations - Anxiety attacks

Impaired motor skills - Reduced concentration – Higher blood pressure

Worse yet, chemical dependency!

**Most drug tests or laboratory panels will not
detect levels of “Spice” or “K2.”**
